Stiffler McGraw Launches New Website *New features with Easier Navigation*

Hollidaysburg, PA- Stiffler McGraw, a full service consulting firm offering civil engineering, surveying and architectural design services, today announced the release of the new and improved website, stiffler-mcgraw.com. This newly redesigned website offers quick and easy access to essential information and features projects and services in a more innovative way tailored to the client's needs.

The new website was re-designed to become more user friendly for viewers with easier navigation. The result is a fresh, new look with streamlined information and more updated content for our projects and services. We have also changed how the standardized menu structure will appear. Now users accessing the platform are able to easily navigate to find what they are looking for. To enhance our company voice, we have added a press release and events section to help clients keep up to date with current trends within Stiffler McGraw. At a later date, the firm will be implementing a quarterly newsletter that will also be distributed via e-mail through signing up on the website.

Stiffler McGraw's new website will be constantly updated with current events, implementations within the firm, client's completed projects and conventions employees will be attending. We encourage viewers to navigate through our new website at www.stiffler-mcgraw.com and experience all of the new features we have added.

About Stiffler McGraw

Stiffler, McGraw is a full service consulting firm offering complete civil engineering and architectural design services. The firm designs innovative concepts for water, sewer, bridges, roads, buildings, building sites and any other type of infrastructure project. In addition, Stiffler McGraw offers planning, funding and construction management services. With their state of the art equipment and eye for intricate detail, Stiffler McGraw can ensure that each project is completed to the highest of standards.
